WP6: Lowering the barriers for newcomers and participants from Widening countries in Cluster 1

WP6 partners: AICIB (PT), EKT (EL), ETAG (EE), NCBR (PL), LMT (LT), TC CAS (CZ), RIF (CY) and LZP (LV)

Task 1: Identify gaps and needs of potential new participants from under-represented sectors in Widening Countries

Task 2: Increase visibility and highlight expertise of health sector stakeholders from Widening Countries

Task 3: Increase submitted proposals and funded participations in CL1 project consortia for Widening Countries

First steps

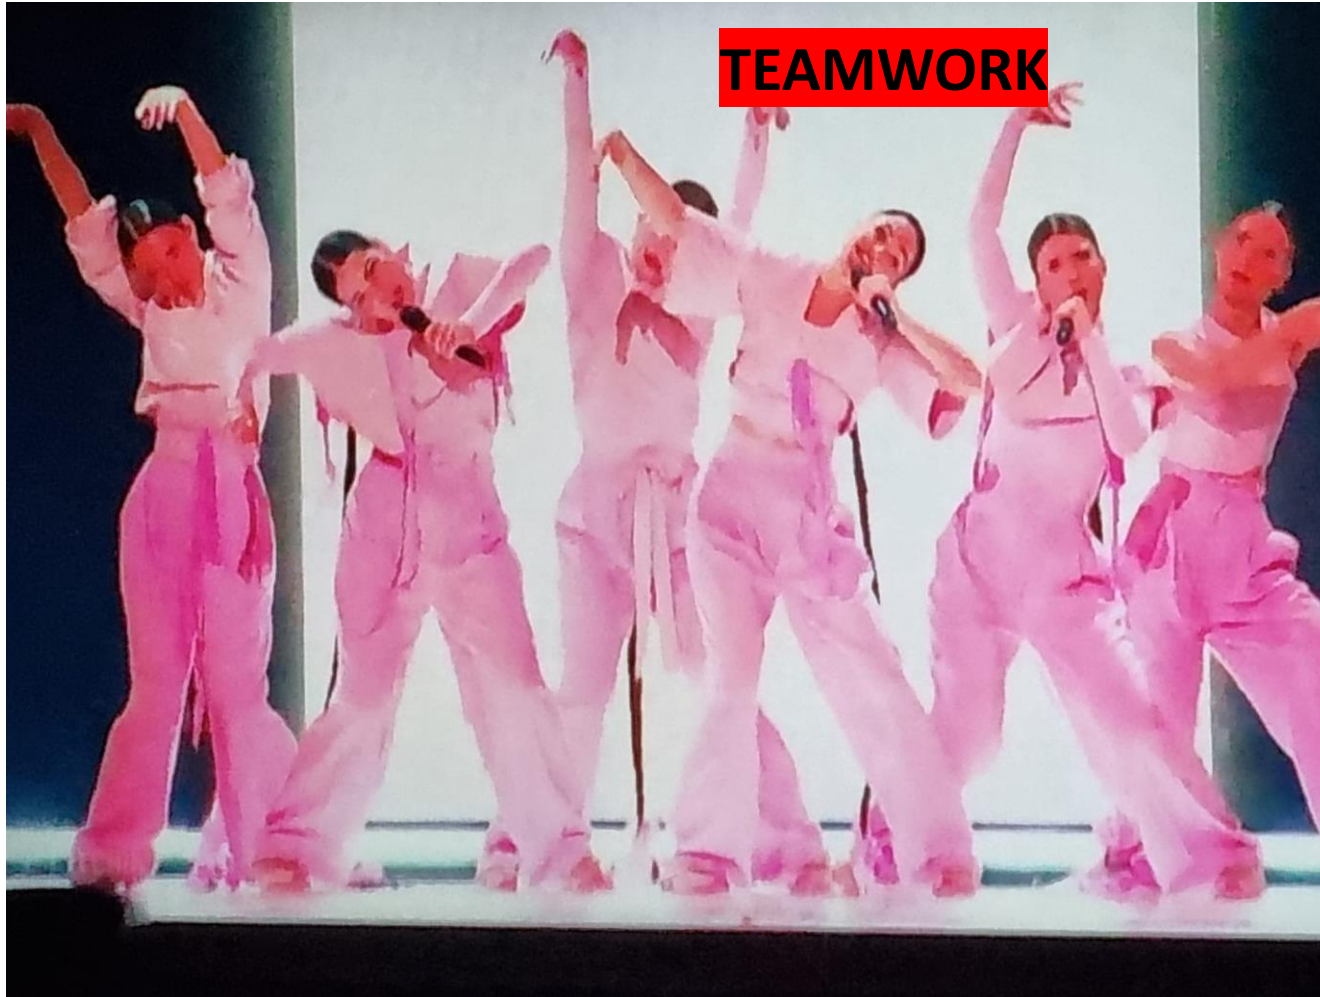

- **Choose the topic(s) carefully** within open calls you want to participate in
- Read the topic carefully and think about **how you could contribute to the consortium** to fulfil the expected outcomes
- Think about **what specific expertise you can offer** as a potential partner
- **Realistically consider your capacity** that can be committed to a new project
- **Ask your NCP;** possibly to provide you with an example on a successful project in your (related) area - CORDIS

Visibility for partnership – Eurovision Lessons learned!

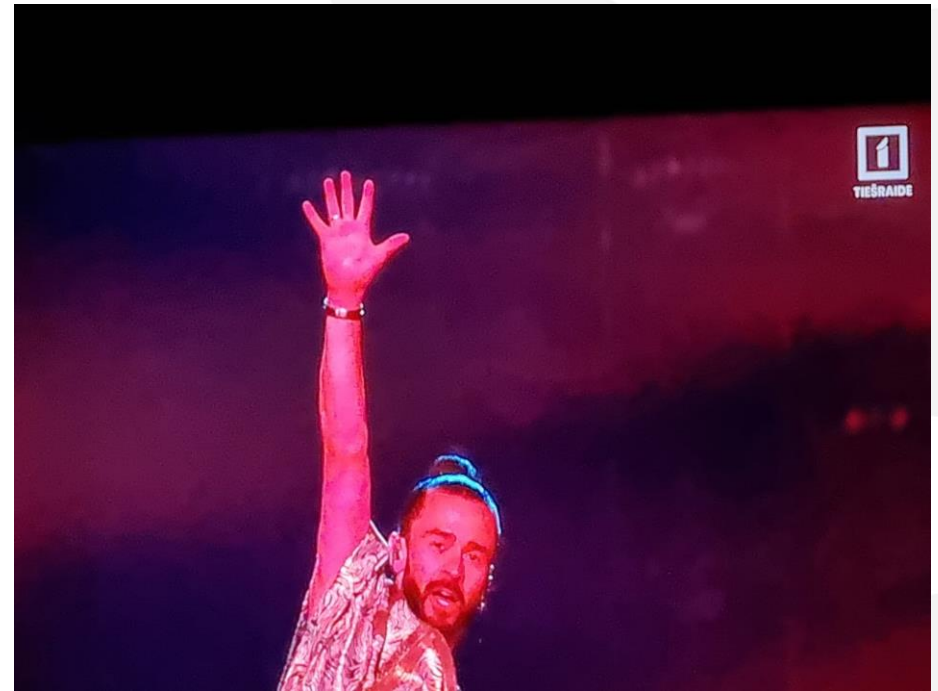

Visibility for partnership – Eurovision Lessons learned!

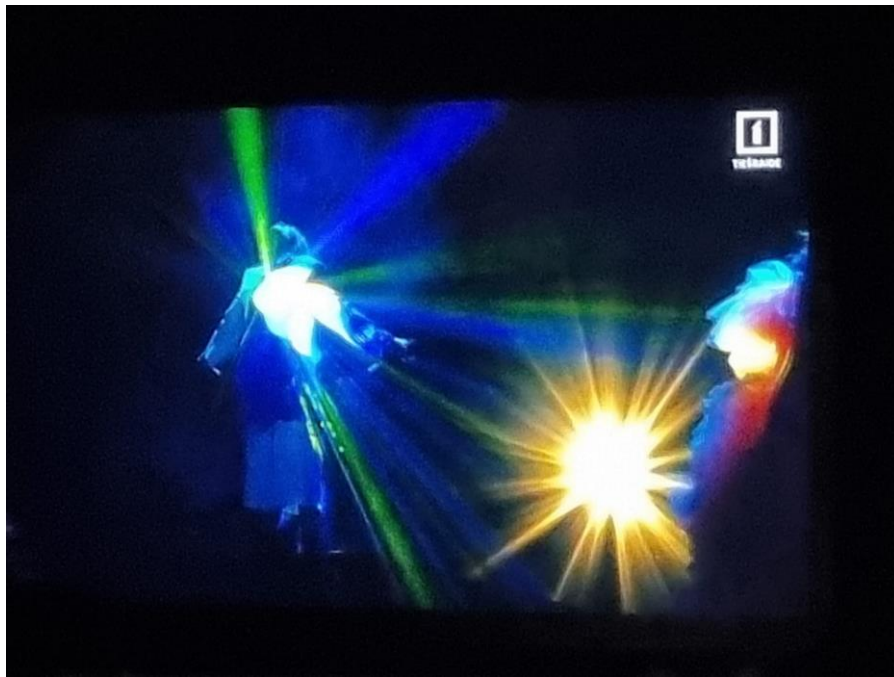

Clear and understandable (mutually) communication!!

Show it all, now or never kind of attitude (but carefully prepared!!)

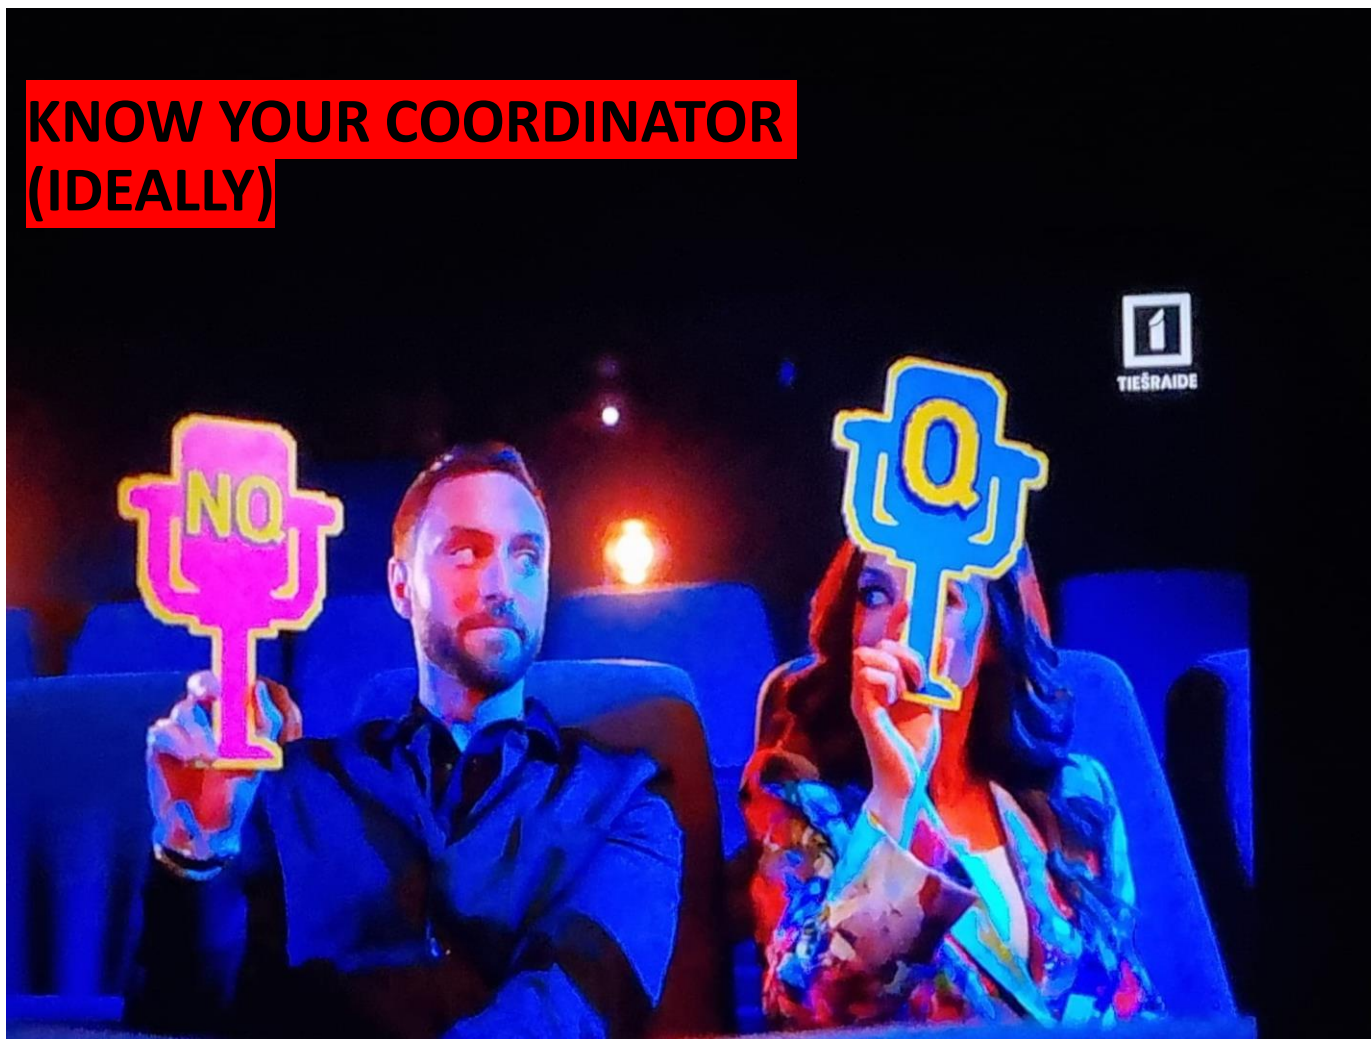

TIMING IS OF PARAMOUNT IMPORTANCE

DO NOT JUST SIT LIKE ALICE IN THE WONDERLAND

**KNOW YOUR COORDINATOR
(IDEALLY)**

**AND YES, ASLO LADY LUCK, AKA
FORTUNA, DO NOT DISSAPOINT
HER! 😊**

**GOOD LUCK REACHES OUT TO
THOSE WHO ARE WELL PREPARED
(USUALLY, UNLESS LOTTERY... 😊)**

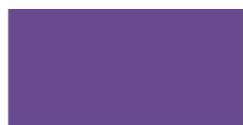

THINGS ARE THE WAY THEY ARE...

Still important

- Make a **list of (call related) things you want to say to establish connection** with potential consortia partner
- **Practice your presentation** as much as possible to fit the timing
- Prepare in such a way that you will **speak naturally** during the pitch; avoid reading or assisted reading
- **Practice the presentation in front of externals** who are not familiar with your part of the project and ask them for feedback.
- **Prepare and test you PC and connection** to the platform - functional monitor, microphone, presentation sharing etc
