

Health NCP Net 2.0 Multi Staff Exchange Visit

National Hellenic Research Foundation
Vas. Constantinou 48 - Athens Greece

The National Documentation Centre of Greece (EKT), located at the National Hellenic Research Foundation, operates under the supervision of the General Secretariat of Research and Technology of the Greek Ministry of Education and Religion. As a national infrastructure, EKT's role is to collect, organise, and preserve the entire Greek scientific, research and cultural output (content and data), while making it available at both a national and global level. EKT provides a wide range of information about research and innovation issues, support Greek participation in national and European programmes (National Contact Point for H2020), promote innovative entrepreneurship (Coordinator of the Greek branch of the Enterprise Europe Network-Hellas), and produce statistics & indicators on research, development and innovation in Greece.
