

Webinar: Clinical Studies in Horizon 2020 Proposals

Marta Barrionuevo | HNN 2.0 Coordinator, ISCIII
Sasha Hugentobler | Swiss Health NCP, Euresearch
HNN 2.0 Beneficiary

15 December
2015

www.healthncp.net

Health NCP Net 2.0 is funded
by the European Union under
the Horizon 2020 programme

Goal of the Webinar

- The new Work programme 2016/2017 Health, demographic change and well-being call is open for submission of proposals and the first deadlines are in February and April 2016
- The following 5 topics in the open call require clinical studies:
 - 2016 Call
 - clinical research on regenerative medicine
 - new therapies for chronic diseases
 - 2017 Call
 - clinical research on regenerative medicine
 - new therapies for rare diseases
 - comparing effectiveness of existing healthcare interventions in the adult population
- This webinar illustrates what you need to know in order to submit eligible strong proposals
- We show you the support available to you through the H2020 application process and beyond.

Agenda

1:30 p.m.

Introduction- *Sasha Hugentobler, Health NCP Euresearch*

1:35 p.m.

-Challenges raised by multinational trials, ECRIN objectives and organization

-ECRIN tools : regulatory database, outcome measures, monitoring tools, data management etc

-ECRIN operational support to the management of multinational trials

Questions and answers

3:00 p.m.

Summary and end of webinar- *Sasha Hugentobler, Health NCP Euresearch*

The first presentation is given by the two clinical experts from the European Commission, Directorate F Health:

Mark Goldammer & Cornelius Schmaltz

Both scientific officers have an extensive background in this thematic and are in charge and developed the guidelines and the template on clinical studies in Horizon proposals.

The 2nd presentation is given by the Director General and Capacity Director of ECRIN European Clinical Research Infrastructure Network:

Prof. Jacques Demotes and Dr. Christine Kubiak

The ECRIN core team, based in Paris, manage the trial portfolio, link the national European Correspondents and promote the ECRIN vision and mission: To support the conduct of independent, multinational trials.

The introduction as well as the summary of the presentation is given by the Health NCP

Sasha Hugentobler, Euresearch

Which topics in the open Call?

In the 2016 call:

- Clinical research on regenerative medicine
- New therapies for chronic diseases

In the 2017 call:

- Clinical research on regenerative medicine
- New therapies for rare diseases
- Comparing effectiveness of existing healthcare interventions in the adult population

How can National Contact Points support you?

- The network of National Contact Points (NCPs) is the main structure to provide guidance, practical information and assistance on all aspects of participation in Horizon 2020.
- NCPs give personalized support on the spot and in applicants' own languages.
- The following basic services are available by NCPs:
 - Guidance on choosing relevant H2020 topics and types of action
 - Advice on administrative procedures and contractual issues
 - Training and assistance on proposal writing
 - Distribution of documentation (forms, guidelines, manuals etc.)
 - Assistance in partner search

Find your NCP here:

http://ec.europa.eu/research/participants/portal/desktop/en/support/national_contact_points.html

**Don't hesitate to use the chat
function for any questions you
may have.**

**We will upload a FAQ a few days
after the webinar**

Enjoy the webinar!
